

After Sales Logistics

arvato digital services supports clients and engineers throughout Europe with reliable after sales services by offering a warehouse, logistics and repair network in Europe, and a worldwide transportation network monitored by an integrated SAP-based IT system.

With this solution, arvato digital services has succeeded in achieving the following results:

- Reduction in transportation and overall process costs
- Reduction in inventory
- Enhanced service level (later cut-off times & shorter turn around times)
- Increased process transparency
