

Products

In this section you find detailed information on all formats offered by arvato digital services worldwide. We produce your products with the most modern technology and our 50 years of experience. Byte-for-byte comparison of input media and sample products ensure, that they hold highest quality standards.

Every day, our replication sites produce more than 6 million discs in more than 18 countries. In 2007, we started producing the Blu-ray disc in the US – since the beginning of April 2008, we have been replicating Blu-ray products in Gütersloh, Germany, as well.
