

## Sourcing, Production & Final Assembly

All over the world, arvato digital services offers the full range of services for creating your products and replicating your content. Cardboard products, manuals, inlays, booklets and many other components are purchased in collaboration with certified suppliers and service providers.

For customers from many different industries such as IT/high-tech, games, video, and audio we handle replication of data carriers, as well as packing and shipping in our production facilities all over the world.
